Announcement – October 2, 2009

OWL Distribution Inc. is pleased to announce that it has achieved Forest Stewardship Council (FSC) certification as well as Sustainable Forestry Initiative (SFI) certification.

By achieving FSC and SFI certification OWL Distribution Inc. joins a growing community of companies, landowners and environmental and social organizations all committed to developing improved forest practices on a global scale.

FSC and SFI certification enables OWL to support forest stewardship as well as continue to provide a wide range of sustainable product choices for our customers.

FSC was established in 1993 in response to concerns over global deforestation. FSC is widely regarded as one of the most important initiatives of the last decade to advocate responsible forest management worldwide. SFI is an independent, non-profit organization responsible for maintaining and improving a sustainable forestry certification program that is globally recognized among the largest in the world.

OWL Distribution Inc. is committed to providing quality products that help preserve the environment while satisfying the needs and preferences of our customers.
