OFFICIAL ANNOUNCEMENT JUNE 2ND 2009

OWL Distribution Inc. is pleased to announce that GREENE-BOARD™ is now the only Tile Backer and Wall Board of its type to receive CCMC approvals. Exclusively distributed in Ontario by OWL Distribution Inc. GREENE-BOARD™ is an environmentally friendly alternative to traditional tile backer and can contribute to four LEED categories. It is far easier to use than cement backer board and has natural benefits over gypsum based products.

GREENE-BOARD™ has now been given approval under CCMC report number 13417-R. This qualifies GREENE-BOARD™ for use in commercial and residential construction as a wall tile backer board in tub and shower areas and other areas requiring a water resistant substrate; also as a floor underlayment for hard surface tile floors, parquet floors, soft floor coverings such as carpet, vinyl tile, cork tile etc.

Please call your OWL sales representative to discuss this innovative building product.
